

#### **Tool 4: Vision and principles for adults' and children's services to work together to support young carers**

You can use this tool to consider how well adults' and children's services work together, and how to improve this.

##### **No wrong doors: Vision**

There are no wrong doors for children and young people who are carers to get help

##### **No wrong doors: Reality**

How do we make this vision a reality in our organisation?

##### **No wrong doors: Principles**

We all identify young carers

We have a shared understanding

We share necessary information

We agree who is best placed to do the assessment

We all use the Children Act 89, Children and families Act 2014, and Care Act 2014

We take a whole family approach

No care or support that we deliver will rely on excessive or inappropriate caring by a young carer

##### **No wrong doors: Practice**

How do we make these principles the practice of our organisation?

This is based on ADASS and ADCS (2015) No wrong doors: working together to support young carers and their families
